

# REAPS READER

Have you helped the environment today?

Earth Day is April 22, 2018. On this day, people celebrate the Earth and all the conservation efforts made to protect it. The first Earth Day was held in the US in 1970. Because of the first Earth Day, the US EPA was created and the Clean Air, Clean Water, and Endangered Species Acts were passed.

April 29 is the Annual Citywide Spring Clean-Up. Throughout the month, community groups, elementary and high schools, and individuals participate by cleaning up an area of the city. REAPS provides free bags and gloves to participants that sign up.

## EARTH DAY POSTERS!!

Don't forget to submit your Earth Day posters. They are due April 10th, 2018.

They should feature what you love about the Earth, how to take care of the Earth or celebrates the Earth.

You can drop them off at Bob Harkins Public Library or at REAPS (1950 Gorse) or we are happy to come pick them up from your school's office by calling 250-561-7327.
