

After doing some much needed spring cleaning, the worms are getting ready to go to their summer home at the REAPS Composting Demonstration garden. The Worm Lady is excited that she will be seeing her friends again soon. Now that April's showers have brought May's flowers, the worms' castings are important food for the flowers to be happy. If your worms are saying goodbye this month, remember that Mothers' Day and Victoria Day are great days to come visit your wiggly friends again.

We, the worms, have come up with three tips that we would like you to always remember:

1. Please feed your fruit, veggies, bread, pasta, and cake to a compost bin rather than throwing them into the garbage.
2. No worm, or student, is too small to make a big difference.
3. Please save us if you see us out on the sidewalk after it rains!

The worms' school year to-do list:

1. Make nutritious castings
2. Save lots of waste from going to a landfill
3. Provide exciting and convenient education
4. Have fun!

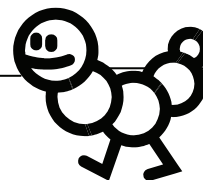

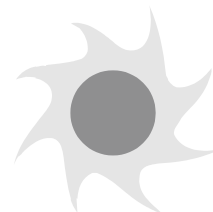

Bon Voyage Party!

You are invited to our going-away-bon-voyage party!

where: the worm bin
when: our last day in your classroom

Please bring cake and feed us the leftovers!

Colour Me!
