

Have you helped the environment today?

Paper Mache Penguin

You will need:

Balloon
Newspaper
Papier Mache paste
Cardboard
White glue
Sand
Funnel
Acrylic paint
Paint brush
Scissors
Masking tape
Googly eyes
Cotton

Instructions

Use a balloon to make a paper mache Penguin, the paper mache will dry within 2 to 3 days.

2. When the paper mache has completely dried, pop the balloon and widen the hole on the paper mache a little bit, just large enough for a funnel to get through (approximately $\frac{1}{2}$ to 1 inch diameter). Remove the balloon latex as well.

3. Insert a funnel through the hole and pour $\frac{1}{2}$ cup of sand into the paper mache.

4. The sand will allow the paper mache to balance and stand on its own. If it's still a bit wobbly, add a bit more sand until it is balanced.

5. Draw and cut out a pair of wings and feet out of cardboard.

6. Tape the wings and feet to the paper mache body with masking tape.

7. Paper mache over the hole on top as well as over the areas with masking tape. Allow the paper mache to dry.

8. Once dry, paint over the whole sculpture with acrylic paint.

9. Glue on any of these materials for the eyes and mouth

EYES - googly eyes, buttons, flat beads or round paper cut-outs

MOUTH- paint or paper cut-out
