

Have you helped the environment today?

## EARTH HOUR

March 29, 2014 at 8:30-9:30 local time is Earth Hour. What is Earth Hour? It is an annual event in which everyone is encouraged to turn off all lights and electronics in your home. Instead of using technology people are encouraged to entertain themselves in new ways. Ideas include reading a book, or playing a board game.

The purpose of Earth Hour is to show our concern for the environment. Started in 2007 in Sydney Australia Earth Hour is sponsored by the WWF.

This March remember Earth Hour. Switch off the lights, and decide upon one things that you will do to help the environment!

## Earth Day Posters

Do you like to draw? Then this is the event for you. REAPS is looking for Earth Day posters. Classes that take part will have their drawing in the Bob Harkins branch of the Prince George Public Library for the public to view. Posters will be due in April so there is still lots of time to think of ideas.

If you are interested, have any questions, or would like more information please contact REAPS.

While it seems that summer is a long ways a way it is time to start thinking about your garden. Many seeds take between 6-8 weeks to grow before they can be planted in your garden so now if the perfect time to start some sapling in a recycled planter!

## Egg Shell Planters

### Materials

- 6 egg shells (broken into halves)
- 1 egg carton
- potting soil / dirt
- seeds

### Process

1. Put your half egg shells into the egg carton cups (1 half per cup)
2. Place some soil into each shell
3. Add the seed to the soil and add some more soil on top (guidelines for how much to bury the seed should be on the seed package)
4. Place egg carton in a sunny spot and keep moist.
5. Watch your seeds grown and when ready place in the garden!
