

# REAPS READER

Have you helped the environment today?

## Earth Day! Activities

- Clean-up and beautify an area of your interest, school yard, street etc.
- Pack a litter free lunch
- Brain storm ideas on ways to conserve water, write them down and put them on your fridge
- Plant a Tree
- Walk or Ride a bike to school

### Save your water!

1-inch of rain on a 1,000 square foot yields 623 gallons of water. Calculate the yield of your roof by multiplying the square footage of your roof by 623 and divide by 1,000. Depending on your roof area, a rain barrel can fill up when there has been as little as 1/10th-inch of rain. To collect twice this volume from the same downspout, connect the overflow hose from the first rain barrel to a second rain barrel.

#### Dates to Remember...

- April 1 April fools day
- April 7 World Health Day
- April 14 Poster Deadline!!!
- April 22 Its Earth Day!!!!
- April 29 It's time to plant and care for trees on Arbour day

In partnership with Science World's Scientist and Innovators in the School (SIS) program, REAPS school program is supported by the Program for the Awareness and Learning of Science (BC PALS) thanks to the province of British Columbia through the Ministry of Education.
