Have you helped the environment today?

Are You Dream-
ing of a
Green
Christmas???

REAPS Annual Recycle Toy Drive

REAPS hosted their toy drive on November 24th and collected 268 boxes of toys. **ABIG THANK YOU** to Ecole College Heights Elementary who collected 2 truck loads of toys which they donated to our toy drive.

It's a wonderful time of year, but with all the extra garbage, chopped down trees, and flashing lights, the holiday season can also be hard on the environment. Here are a few tips to help you celebrate the environment this Christmas:

Reduce, reuse, and recycle wrapping paper! Try saving your paper to use again next year, or make your own! You can use any kind of paper: paper bags, old calendars, magazines, newspaper, or even old school papers! Decorate by painting pictures or stamping designs on it.

Make the switch to LED! LED Christmas lights are much more energy efficient than regular bulbs. They are also safer because they don't heat up, so there's no chance of combustion or burning! LED also last longer, and even if one light burns out, the rest will keep on glowing.

Recycle your tree! Look for the dates of the annual Lions Club collection to dispose of your tree after Christmas, or buy a tree with roots attached and plant it in the spring!

Plan your trips! Reduce the number of trips you take to the store to shop for gifts by planning ahead and making a list. Bring your own shopping bags to carry home presents rather than using plastic bags from the store.

Recycle everything! Return all your beverage containers to the nearest bottle depot for cash! Food cans, glass jars, cardboard, paper, and milk jugs and cartons are also recyclable. You can even recycle leftover fruits and veggies from Christmas dinner by composting them.

Important Dates

	Dec 1st	
	World Aids Day	
	Dec 5th	
	First Day of Hanukkah	
	Dec 10th	
	Human Rights Day	
	Dec 22nd	
	Winter Solstice (the shortest day of the year)	
	Dec 25th	
	Christmas Day	
	Dec 26th	
	Boxing Day and First Day of Kwanza	
	Dec 31st	
	New Year's Eve	

In partnership with Science World's Scientist and Innovators in the School (SIS) program, REAPS school program is supported by the Program for the Awareness and Learning of Science (BC PALS) thanks to the province of British Columbia through the Ministry of Education.
