

# REAPS READER

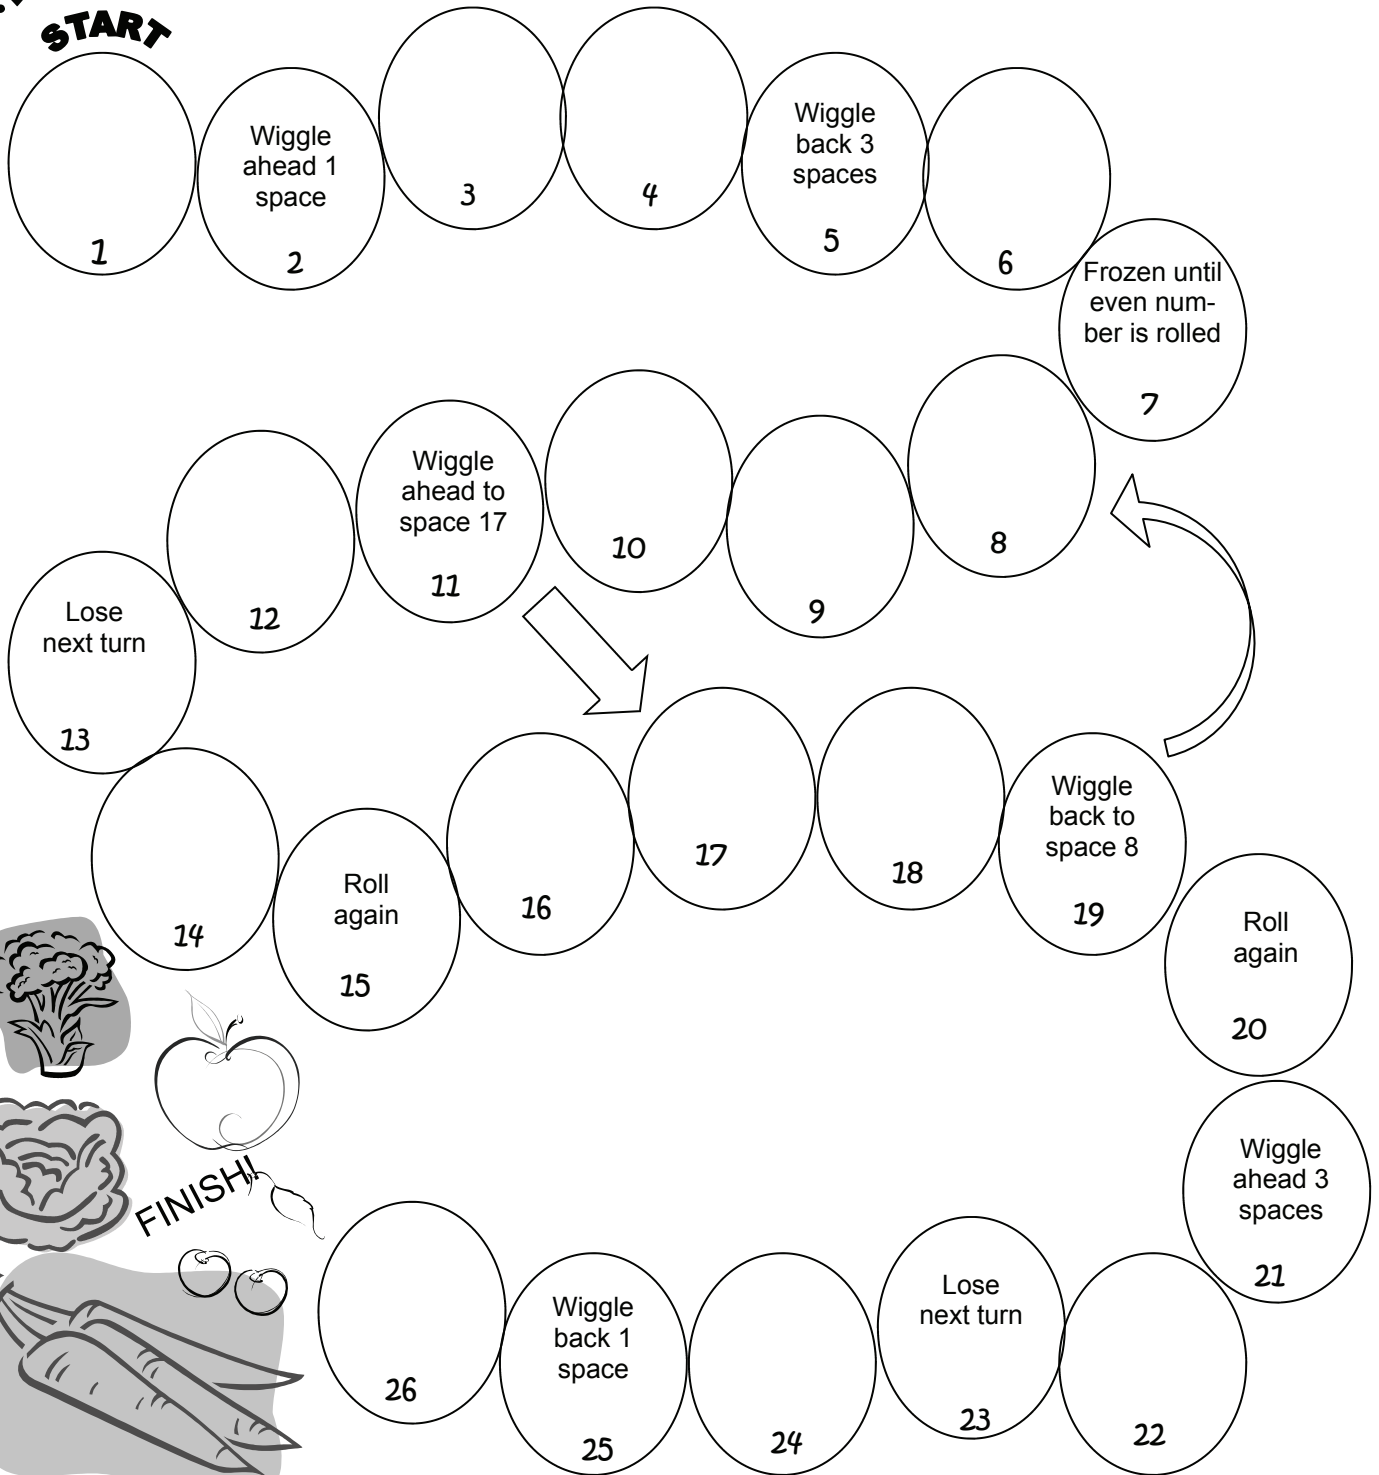

Have you helped the environment today?

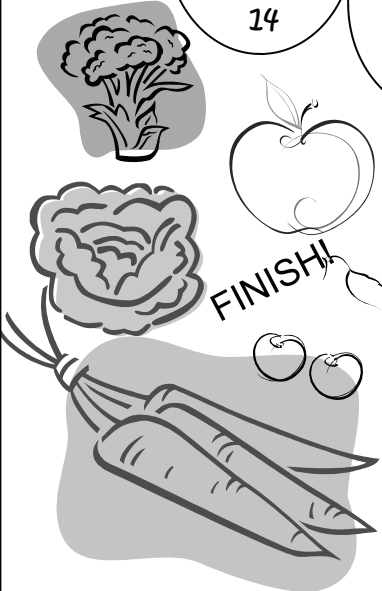

Help Luna the Worm find her way through the soil to the food. Watch out! Some of the spaces will either help the journey or make it more difficult. Use objects such as coins for the playing pieces, and a die to move forward.

**START**

**FINISH!**

In partnership with Science World's Scientist and Innovators in the School (SIS) program, REAPS school program is supported by the Program for the Awareness and Learning of Science (BC PALS) thanks to the province of British Columbia through the Ministry of Education.
