

REAPS READER

Have you helped the environment today?

Important Dates to Remember

- November 1-** Exploration Place Rotten Pumpkin Toss
- November 11-** Remembrance Day
- November 21-** REAPS Recycle Toy Drive

Recycle Toy Drive

Do you have toys sitting in the closet that you never use, or a pile in the basement that has been sitting there for years. Well now is the time to go through your toys and donate them to local children who are less fortunate because the Holiday season is a time for giving. REAPS will be collecting toys for the season on November 21 from 10 a.m. to 2 p.m. at REAPS Compost Demonstration Garden, 1950 Gorse Street.

What is climate change?

The change in average weather over time and over a region. Climate change includes changes in temperature, wind patterns and precipitation.
