Check Out Our Other Cool School Programs!!!

ELLIE THE ELEPHANT AND PLASTICS

What is plastic made of?? Find out in this interactive, hands-on presentation! You learn how to make plastic, about its history, everyday uses and how it is recycled!

ARE YOU WASTING YOUR WASTE?

Ever wonder what it's like to have your own landfill? Wonder no more. Build your own landfill in this stimulating, lively presentation about our landfill. Also learn how garbage affects the environment and alternatives to the garbage can.

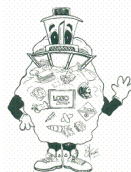

H2Ozone

Ever wonder what happens to all the smoke you see in the sky, or where rain comes from? In this engaging presentation children will get a close up look at the air and water cycles, how they are polluted, and why it is important to conserve them.

MEET DUMPY!

It's recycling education with a giant twist! The children will meet "Dumpy, the Overfed Landfill" a real live walking, talking, dancing landfill. He will introduce your group to recycling, waste reduction and environmental education! It is an engaging, interactive presentation that is full of surprises for the children.

REMINDER

October is Waste Reduction Month and R.E.A.P.S. once again will be challenging your classrooms to produce the least amount of garbage during the week of October 16—20th. The class with the least amount of waste for the week will receive a \$100 prize.

For more information about the programs or to register call R.E.A.P.S. @ 561-7327

or email to: garden@reaps.org

In partnership with Science World's Scientist and Innovators in the School (SIS) program, REAPS school program is supported by the Program for the Awareness and Learning of Science (BC PALS) which is supported by the province of British Columbia through the Ministry of Education.
